About Company

SORZA provides rooftop solar solutions for domestic and commercial projects. We focus on quality, reliability and efficiency, our company uses best in class materials. Renewable energy is a constantly evolving sector and we strongly believe that it is the next revolution after the semiconductor and computer. We are continuously working on introducing new technologies in PV rooftop engineering.

We are committed to customer satisfaction and product quality by focusing on continuous improvements in installations and services. It's our mission to make customers happy and save the environment. We have positioned our values to be a technology driven and innovative company that is continuously upgrading its products and services facilities which adds benefits to our esteemed customers. We conduct our business fairly with transparency to achieve the highest possible standards in our work.
